GPCN – Compliance Assurance Statement

The Global Private Cloud Network (GPCNTM) ensures that our network of Tier 3+ private cloud providers collectively maintain compliance with internationally recognized standards and regulatory frameworks, at minimum SOC2 Type II and/or ISO 27001.

This provides assurance to our partners and resellers that workloads deployed through the GPCNTM benefit from environments designed and audited for data protection, security, and privacy compliance.

Framework	Scope	Status	Requirement
SOC 2 (Type I/II)	Trust Services Criteria	✓	Certification
ISO 27001	Information Security Management System	✓	Certification
SOC 3	Public-facing report	✓	Optional Certification
ISO 27017 / 27018	Cloud-specific controls	✓	Optional Certification
HIPAA	U.S. healthcare data privacy/security	✓	Optional Self-Attestation
PIPEDA	Canadian federal privacy law	✓	Optional Self-Attestation
GDPR	EU data protection	✓	Optional Self-Attestation

The GPCNTM maintains active records of available provider certifications to ensure compliance readiness for enterprise and public-sector client requirements. Resellers can confidently present these private compute services knowing they align with the highest industry standards.

Sincerely,

Alberto Da Anunciacao

President
